Capabilities

Streamlining and Optimization

- Manufacturing and Service Process Automation & Streamlining
- Process Value Stream Mapping & Optimization

People, Process and Technology

- Engineering Change Control & Implementation
- Internal Communication Strategies
- Life Cycle Product Management - Implementation & Training

Core Abilities

- Critical Business Measures - Identifying, Developing, Execution
- Production Facility Construction/ Refitting
- New Product Introduction
- Business Training - e.g. MS Project, Office etc
- Supplier Integration, Trouble-shooting and Relationship Building
- Developing Dual Source Supplier Strategies
- Hands-on Project Start-up
- ISO9000
- Manufacturing Engineering
- Cleanroom Class 100 & 1000 design and build

Teamwork and Motivation

- Continuous Improvement - Teams, Process, Measures, Visibility
- Customer and Supplier Relationship Management
- Innovative Problem Solving
- Multi location Team Building and Leadership
- Cross-function Team Building & Motivation
- Team and Project Leadership, Motivation and Steering

Tools

- Developing, Automating and Running Business Performance Metrics
- Data Management, Manipulation and Results Filtering
- Database Spec, Design and Implementation
- MS Access, MS Project, Office, AutoCAD2007, Macromedia Studio Web Suite, Photoshop, FinalCut Pro movie editing, OrCAD, Adobe Premier, FileMaker Pro
- Process Documentation
- Test Program Specification and Development
- Translating ideas into Practical, Sustainable Systems
- Production Automation and Data Gathering
